Sheer
Driving Pleasure

**THE BMW M4 COUPÉ.
THE BMW M4 CONVERTIBLE.
THE BMW M3 SALOON.**

International version. Please contact your local dealer for country specific information.

BMW stands for sheer driving pleasure – something that everyone enjoys in their own individual way. Discover a wide world of experience at www.bmw.com/BMWstories

GET MORE FROM YOUR BROCHURE.

Films, image galleries and much more – discover exciting digital content on every page with a QR code.

Download a QR code-reader compatible with your operating system from the relevant online store. Then, simply start the reader and hold your smartphone or tablet over the code.

You can also discover the BMW M4 Coupé, BMW M3 Saloon and BMW M4 Convertible in a digital brochure. Simply download the BMW brochure app for your device and select the desired model.

Internet use, depending on your mobile contract, may incur costs.

ONE WITH THE MACHINE.

THE MODELS SHOWN.

- 04 BMW M4 COUPÉ:**
M TwinPower Turbo inline six-cylinder petrol engine, 317kW (431hp), 19" M light alloy wheels Double-spoke 437 M Black. Exterior in Austin Yellow metallic, seats in Black full Merino leather, Carbon Fibre interior trim with black chrome accent.
- 10 BMW M3 SALOON:**
M TwinPower Turbo inline six-cylinder petrol engine, 317kW (431hp), 19" M light alloy wheels Double-spoke 437 M Ferric Grey. Exterior in Yas Marina Blue metallic, seats in Silverstone full Merino leather, Carbon Fibre interior trim with black chrome accent.
- 14 BMW M4 CONVERTIBLE:**
M TwinPower Turbo inline six-cylinder petrol engine, 317kW (431hp), 19" M light alloy wheels Double-spoke 437 M Black. Exterior in Mineral Grey metallic, seats in Sakhir Orange full Merino leather, Carbon Fibre interior trim with black chrome accent.

INNOVATION AND TECHNOLOGY.

- 22 M TWIN POWER TURBO ENGINE:**
Power with maximum efficiency.
- 24 BMW EFFICIENT LIGHTWEIGHT CONSTRUCTION AND ATHLETIC DESIGN:** The art of engineering – at its most powerful.
- 26 CHASSIS:** Innovative systems for more driving pleasure.
- 28 BMW CONNECTED DRIVE:** Services & Apps and driver assistance.

INDIVIDUALITY AND VERSATILITY.

- 32 EQUIPMENT:** Equipment highlights and BMW Individual.
- 44 COLOURS:** A world of colour for the exterior and interior.
- 48 TECHNICAL DATA:** Engine, performance, fuel consumption, weight, wheels, electrical system and dimensions.
- 50 BMW SERVICE:** BMW Service, BMW Financial Services and BMW Experience.

TRAIL BLAZERS

ONE WITH THE MACHINE.

Maximum performance at the limit. The BMW M4 Coupé, BMW M3 Saloon and the BMW M4 Convertible confront the laws of physics – three icons that yet again set new standards with unprecedented precision. But they don't just push the physical limits. They also extend the boundaries for the driver, making what was once thought impossible, possible – when man and machine become one.

EXPERIENCE ALL THE HIGHLIGHTS
IN THIS SHORT FILM.

AN ENGINE YOU IGNITE.
WITH EXPLOSIVE RESULTS.

The M TwinPower Turbo engine delivers the best of both worlds in each of the three models: a 7,600rpm high-revving concept and highly efficient power – with peak torque of 550Nm and output of 317kW (431hp) at your command. With the optional 7-gear M dual-clutch transmission, it takes 4.1 seconds to reach 100km/h (4.4s in the BMW M4 Convertible); 200km/h arrives 9.5 seconds later (BMW M4 Convertible: 10.4s). The overall concept, now in its fifth-generation, has reached a new peak of technical perfection. And you will feel the results in every kilometre.

Master every driving situation. A perfected lightweight construction concept and an extremely low centre of gravity provide the basis for exceptional handling characteristics. The intelligent material mix of carbon and aluminium ensures outstandingly low vehicle weight. And thousands of test laps have proved, without question, that the BMW M3 Saloon, BMW M4 Coupé and the BMW M4 Convertible set new benchmarks when it comes to agility and dynamism.

CARBON. ALUMINIUM. ADRENALINE.

EXPERIENCE M GENES AT THE
LIMIT IN THIS SHORT FILM.

PUT THE BRAKES ON PHYSICS.

Everything is designed for maximum control in the driver-orientated cockpit: all elements, such as the M seats with their bucket-style character and the M leather steering wheel, ensure perfect ergonomics and command of the vehicle – even in the most dynamic situations. The optional M Carbon Ceramic Brakes reduce weight even more and, with their larger discs and increased number of pistons, further optimise performance, the motor sport feel and service life. The M-specific BMW Head-Up Display, available on request, projects the most important data into your field of vision – so you always keep your eyes on the road. Because what you can see, you can also master.

FRESH AIR,
TO TAKE YOUR BREATH AWAY.

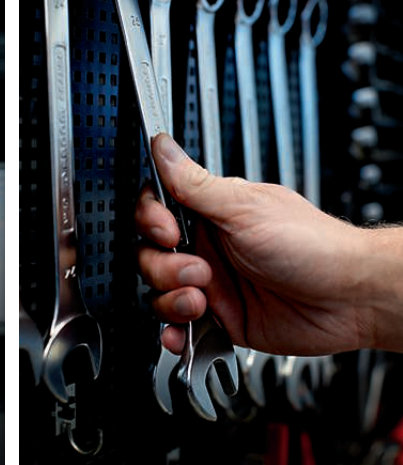

The apex of the curve is clearly in sight, the machine under perfect control. Like the BMW M4 Coupé and the BMW M3 Saloon, the BMW M4 Convertible has been designed using motor sport technology for pure dynamics at the performance limits. The aerodynamic M design, meanwhile, does more than showcase your commanding position. It also helps you hold your lead in the race.

EXPERIENCE THE BMW M4 CONVERTIBLE
IN THIS FILM.

**YOU DECIDE
WHO COMES FIRST.**

INNOVATION AND TECHNOLOGY.

M TWIN POWER TURBO ENGINE: Power with maximum efficiency.

BMW EFFICIENT LIGHTWEIGHT CONSTRUCTION AND ATHLETIC DESIGN:
The art of engineering – at its most powerful.

CHASSIS: Innovative systems for more driving pleasure.

BMW CONNECTED DRIVE: Services & Apps and driver assistance.

M TwinPower Turbo engine.

Performance with maximum efficiency.

Experience a new dimension of driving enjoyment and efficiency with the innovative BMW engines featuring M TwinPower Turbo technology. This innovation package – a milestone of the BMW EfficientDynamics strategy – combines the latest fuel injection technology and fully variable valve control and camshaft adjustment with innovative turbocharging technology to increase dynamism and efficiency. The result: pure driving pleasure.

M TWIN POWER TURBO INLINE SIX-CYLINDER PETROL ENGINE.

A passion for innovation and technology combined with many years of motor sport experience flow into every engine developed by BMW M GmbH. It follows that the interplay of all components, including M TwinPower Turbo technology with Valvetronic, two weight-optimised mono-scroll turbochargers, the forged crankshaft and the high-performance cooling system delivers outstanding responsiveness and maximum performance output in the M TwinPower Turbo engines. At the same time, emissions and fuel consumption are reduced.

BMW M4 Coupé / BMW M3 Saloon / BMW M4 Convertible.

- M TwinPower Turbo inline six-cylinder with 317kW (431hp) and 550Nm of torque
- Acceleration 0–100km/h: 4.3s (4.1s)¹ for the BMW M4 Coupé/BMW M3 Saloon and 4.6s (4.4s)¹ for the BMW M4 Convertible, each with six-speed manual M transmission
- Top speed: 250km/h (restricted)
- Combined fuel consumption: 8.8l/100km² (8.3l/100km²)¹ for the BMW M4 Coupé/BMW M3 Saloon and 9.1l/100km² (8.7l/100km²)¹ for the BMW M4 Convertible, each with six-speed manual M transmission
- CO₂ emissions: 204g/km² (194g/km²)² for the BMW M4 Coupé/BMW M3 Saloon and 213g/km² (203g/km²)¹ for the BMW M4 Convertible, each with six-speed manual M transmission

¹ Values apply to vehicles with 7-gear M dual-clutch transmission.
² Fuel consumption and CO₂ emissions are dependent on wheel and tyre size.
For more information, see pages 48/49.

BMW EfficientLightweight construction and athletic design.

The art of engineering – at its most powerful.

The BMW M4 Coupé, BMW M3 Saloon and BMW M4 Convertible deliver maximum driving pleasure coupled with an outstanding performance/fuel consumption ratio thanks to BMW EfficientLightweight construction measures in combination with athletic design.

BMW M engineers are always exploring the development of intelligent vehicle concepts. And the results, from drivetrain innovations through to body components, are integrated specifically into M vehicles – for exceptional driving performance with impressive efficiency.

M TwinPower Turbo technology featuring a high-rev concept combines performance with efficiency. Innovative turbo technology, High Precision Injection, fully variable Valvetronic valve control, Double-VANOS and the high-rev principle guarantee immediate responsiveness, linear power development over a wide range of engine speeds and a unique sound.

BMW EfficientLightweight construction is a peak priority in M vehicles. This is because low weight is the optimum platform for the best driving dynamics and exemplary efficiency. Ultra-light materials such as aluminium and carbon fibre-reinforced plastic (CFRP) are used in many components. This all ensures greater agility and dynamism, including improved acceleration and braking.

Comprehensive and coordinated **aerodynamics measures** optimise driving dynamics, stability, controllability and cooling of M vehicles, particularly at high speeds. Reduced air resistance also improves performance and lowers fuel consumption.

With Brake Energy Regeneration, the alternator generates electricity primarily when the driver brakes or takes their foot off the accelerator. Previously unused kinetic energy is transformed into electrical energy and fed into the battery.

The Automatic Start/Stop function switches the engine off when the vehicle comes to a temporary standstill (e.g. at traffic lights or in a traffic jam) to reduce overall fuel consumption. When the driver presses on the clutch (six-speed manual) or takes their foot off the brake (optional 7-gear dual-clutch transmission with Drivelogic), the engine automatically starts up again in a fraction of a second.

Carbon roof. As part of the BMW intelligent lightweight construction concept, the roof of the BMW M4 Coupé and BMW M3 Saloon is made of carbon fibre-reinforced plastic (CFRP). This helps to reduce mass while also lowering the centre of gravity. And this, in turn, increases agility and dynamics when cornering, accelerating and braking. The carbon fibre structure is visible.

Chassis.

A solid foundation for superior driving dynamics.

Conventional rules do not apply to the BMW M4 Coupé, BMW M3 Saloon and BMW M4 Convertible. As independent productions of BMW M GmbH, they are faithful to the M philosophy and perfectly combine high performance with optimum, everyday practicality. To fulfil these high aspirations, the intricately constructed M high-performance chassis has been entirely redeveloped.

The intelligent networking of chassis components and control systems ensures maximum driving dynamics and agility as well as a high degree of precision and control. Experience fascinatingly authentic driving feel.

The **Active M Differential** optimises traction and driving stability when changing lanes or accelerating out of curves, when cornering at high speed or on roads with uneven surfaces. Traction is improved via an electronically controlled device that reduces the difference in revolution speed between the rear wheels.

M Dynamic mode enables the maximum exploitation of lateral and longitudinal dynamic potential for a particularly authentic driving experience. It works by raising the intervention threshold of the Dynamic Stability Control (DSC) system, although the driver is still supported in critical situations.

With the optional **Adaptive M suspension**, electronic control of the shock absorbers ensures optimised road contact and traction in any situation. The suspension settings can be adjusted from comfortable through to sporty-dynamic via the COMFORT, SPORT and SPORT+ modes.

M Servotronic adjusts the power steering to suit the current speed and, even at high speeds, ensures direct and precise steering responses. It also provides excellent comfort by minimizing the effort required for steering, as well as maximising agility when parking, manoeuvring and navigating narrow or twisting roads.

The optional **7-gear M dual-clutch transmission with Drivelogic** is an innovative dual-clutch system specially designed for the high-revving BMW M engine. It enables extremely fast gearchanges without any loss of tractive force. Two sub-transmissions, each with its own clutch, continuously relay engine power to the rear wheels.

With the optional **M Carbon Ceramic Brake System**, braking power is implemented more directly. It doesn't corrode, tolerates more heat, is highly resistant to abrasion and contributes to lower vehicle weight, which has a positive impact on agility, dynamics and acceleration. Brake calipers in Gold Metallic with the M logo make this special technical feature visible from the outside of the car.

BMW ConnectedDrive

So connected you're free.

Every day our lives are becoming more and more connected. BMW drivers, however, enjoy better connections with the outside world than most. They can source information, communicate by telephone and email, keep an eye on the traffic and generally stay up to date while on the move. The services that so effectively network BMW vehicles with the outside world are grouped under one term – BMW ConnectedDrive.¹

The **ConnectedDrive Services*** option keeps you seamlessly connected with the people and the things that matter to you. And every function has been developed to enhance your driving experience. A comprehensive selection of services and apps include Facebook, web radio and message dictation, all easily accessed from the BMW ConnectedDrive Store. Here, you can explore all that's available to you and, if you wish, access any specific choice directly in the vehicle. You can also use the My BMW ConnectedDrive customer portal on your PC or tablet.

BMW ConnectedDrive, with its intelligent services and assistance systems, is ready with all the right equipment. **BMW ConnectedDrive Services & Apps** offer more freedom by providing versatile connections between the driver, vehicle and outside world. **BMW ConnectedDrive Driver Assistance systems** make driving a BMW safer and more comfortable. And intelligent systems make life easy for the driver and minimise the dangers of traffic.

The optional **BMW Head-Up Display² with M-specific display** (only in combination with a navigation system) projects driving-related information directly into the driver's line of sight. Pressing a button activates the M-specific display, which additionally shows the selected gear in the six-speed M manual transmission or the optional 7-gear dual-clutch transmission with Drivelogic, rpm as a dynamic range curve and shift lights to indicate the optimum moment to change gear.

The **Driving Assistant** combines the Lane Departure Warning and Approach Warning systems. The Approach and Pedestrian Warning with City Brake Activation issues a warning if there is a risk of collision with vehicles or pedestrians and brakes the vehicle in the event of an emergency. From a speed of approx. 70km/h, the Lane Departure Warning draws the driver's attention to an unintentional lane change by means of slight vibrations in the steering wheel.

With the **BMW Laptimer app**, driving data from the racecourse can be precisely recorded and analysed to improve driving-performance. The recorded information, in categories such as accelerator pedal, steering angle, G-force and best lap time, can be posted as snapshots to Facebook or Twitter or sent by email.³

* May not be available in all countries. Please consult your BMW partner.

¹ Further information on BMW ConnectedDrive, particularly service durations and costs, can be found at www.bmw.com/ConnectedDrive.
² Visibility of the display is limited with polarised sunglasses.
³ Download the BMW M Laptimer app from the App Store and experience the dynamism of your BMW M4 Coupé, BMW M3 Saloon or BMW M4 Convertible from a completely new perspective. For more information, go to Customer.Service@bmw.com

INDIVIDUALITY AND VERSATILITY.

EQUIPMENT: Equipment highlights and BMW Individual.

COLOUR: A world of colour for the exterior and interior.

TECHNICAL DATA: Engine, performance, fuel consumption, weight, wheels, electrical system and dimensions.

BMW SERVICE: BMW Service, BMW Financial Services and BMW Experience.

BMW M4 COUPÉ.

[01] The athletic design of the BMW M4 Coupé accelerates the senses – even at a standstill. [02] Striking interior design with circular, M-specific instruments, the M leather steering wheel with chrome trim and coloured contrast stitching as well as the optional Carbon Fibre interior trim.

[03] The tailgate design features an integrated rear spoiler that aerodynamically optimises downforce and further reduces weight through its use of carbon. [04] The M seats, with their functional bucket-style character, integrated head-restraints and illuminated M symbols, have a powerful design and perfect ergonomics. Shown here in the optional full, fine-grain Merino leather in Black. [05] The optional 19" M light alloy wheels Double-spoke 437 M with mixed tyres, shown here in black, signal the vehicle's lightweight construction concept with their special forging technology.

EXPLORE THE EQUIPMENT CHOICES FOR THE
BMW M4 COUPÉ.

BMW M3 SALOON.

[01] The bold design demonstrates the innate power of the BMW M3 Saloon. [02] The athletic interior is characterised by typical M driver orientation and perfectly crafted materials. The ergonomically optimised shift lever of the optional 7-gear dual-clutch transmission with Drivelogic conveys motor sport feel and the free-standing Control Display presents all functions in particular clarity.

[03] The diffuser and characteristic M double tailpipes in the rear apron signal power and compelling purpose. [04] The deep position and high side bolsterng of the M seats with their bucket-style character, shown in optional full, fine-grain Merino leather in Silverstone, convey a motor sport feel. [05] The light alloy wheels are specially optimised for steering precision, traction and stability. Optional 19" M light alloy wheels Double-spoke 437 M with mixed tyres, here in Ferric Grey.

EXPLORE THE EQUIPMENT CHOICES FOR THE
BMW M3 SALOON.

BMW M4 CONVERTIBLE.

[01] At the front, multi-faceted surfaces, precise contours and a strong three-dimensional feel give full expression to a new understanding of design from BMW M. [02] The exclusive cockpit with typical M driver orientation exemplifies the ergonomic concept of M vehicles. All control elements and displays, as well as details such as the M driver's footrest, are consistently focused on the driver. The emphasis, as in motorsport, is on intuitive control combined with the fastest possible reaction times.

[03] The "fast" side lines and sporty, flat rear combine high dynamism with the utmost elegance. [04] The M seats are distinguished by their perfect ergonomics and body support during dynamic driving. Shown here in optional Sahkir Orange full fine-grain Merino leather. [05] The M light alloy wheels feature sporty design and contribute to the car's weight reduction. 18" M light alloy wheels V-spoke 513 M with mixed tyres, as standard.

EQUIPMENT ONLINE.

EQUIPMENT HIGHLIGHTS.

[01] The precision strut brace in carbon fibre-reinforced plastic (CFRP) increases frontal rigidity for improved steering precision and accuracy. [02] As part of the intelligent lightweight construction concept, the carbon roof¹ helps to lower the vehicle's centre of gravity. [03] Glass roof¹, electric, with button-controlled slide and tilt function. Not with carbon roof. [04] Aerodynamically optimised M wing mirrors with double-bridge design and integrated LED indicators embody sporty character. [05] The M kidney grille with high-gloss black double slats and model designation emphasises the forward-thrusting design of the front section. [06] The two bevelled M double tailpipes in high-gloss chrome fit harmoniously into the flowing lines of the rear apron.

[07] Adaptive LED Headlights including low- and high-beam headlights, LED indicators and BMW Selective Beam (anti-dazzle High-Beam Assistant). [08] The striking M gills underscore the sporty look and, along with the integrated Air Breather, optimise aerodynamics. [09] 18" M light alloy wheels V-spoke 513 M with mixed tyres, forged. [10] 19" M light alloy wheels Double-spoke 437 M with mixed tyres, forged, burnished, Ferric Grey. [11] 19" M light alloy wheels Double-spoke 437 M with mixed tyres, forged, burnished, Black. [12] Through the use of various materials, M compound brakes achieve outstanding deceleration values and high stability as well as a long lifespan. [13] The M Carbon Ceramic Brake System offers even better braking performance and great stability. It also contributes to the further reduction of rotating mass.

WELL TAKEN CARE OF WITH BMW SERVICES:

When you buy a BMW, you can look forward to superb service and comprehensive customer care. For example, the **Condition Based Service** independently tracks both service fluid levels and the condition of parts subject to wear and then notifies you in the display when the vehicle requires servicing. So you only need to go to your BMW service partner when it's really necessary. When you do go, our

qualified BMW service specialists take care of your vehicle using the newest workshop technology and only **original BMW parts**. This service is available worldwide in more than 3,300 BMW service partner establishments in over 150 countries, to provide you with limitless driving pleasure.

BMW SERVICE.

BMW Service Inclusive*: BMW Service Inclusive enables you to enjoy unlimited driving pleasure in your new BMW. You can select different levels of coverage and various contract durations. Costs for maintenance, inspection and wear are covered for the entire duration of the contract. Of course, only Original BMW Parts will be used for any repairs. BMW Service Inclusive is not just effective in your country, but worldwide, at all participating BMW Service partners. For further information visit www.bmw.com/serviceinclusive

BMW Mobile Service*: This service is there for you in case of a breakdown, day and night. Specially trained BMW technicians do everything necessary, on the phone or on-site, to get your car back on the road as fast as possible. We offer a comprehensive country-specific mobility package for breakdowns and insurance that covers you in the event of an accident or theft. And in case of an accident, call us at the BMW accident hotline! We'll take care of calling the police, an ambulance, a tow truck, a replacement car, notifying your insurance company and much more. For more information visit www.bmw.com

BMW TeleServices*: With Condition Based Service, you'll be automatically notified in the display of your next necessary service appointment. Provided you've consented, the most important vehicle data required for analysis will be relayed to BMW automatically. Your assigned BMW service partner will access the information and contact you free of charge to make a service appointment – if one is necessary. To access BMW TeleServices, the vehicle must be equipped with the optional Intelligent Emergency Call or ConnectedDrive Services. If necessary, the service can be deactivated at any time. For more on this topic please visit www.bmw.com/teleservices

BMW Financial Services: Tailor-made finance: BMW Financial Services offers you attractive leasing, finance and insurance packages. For further information visit www.bmwfs.com or ask your local BMW partner to make you an individual offer.

THE BMW EXPERIENCE.

BMW TV*: www.bmw.tv enables you to experience the BMW brand in all its diversity. Features, portraits and background reports provide you with information on automobiles, innovations, sports and lifestyle topics.

BMW Driving Experience: The better you control your BMW, the more enjoyment you will derive from driving it. Use our training courses to learn for yourself what it means to reach a car's physical limits on various types of surfaces, and what you have to do to control your vehicle even in extreme situations. For further information please visit www.bmwdrivingexperience.com

BMW Welt: A visit to BMW Welt is something you will never forget, whether you go to pick up a new car or just to enjoy the fascination of the brand. To collect a new vehicle, you can choose between three options: Premium Compact, Premium or Premium Plus. To enjoy BMW Welt online, simply visit www.bmw-welt.com/en

BMW Magazine: In BMW Magazine, experience the newest BMW models in front of stunning backdrops. Discover new design trends, travel destinations and the richness of modern life. Encounter people with visionary ideas who are changing the world. Find out more at www.bmw.com/magazine

SHAPING THE FUTURE – RESPONSIBLY.

In 2013, the BMW Group was once again listed in the Dow Jones Sustainability World and Europe Indices and thus ranked one of the most sustainable automotive companies worldwide. The development of efficient vehicle concepts and eco-friendly production processes, up to and including recycling, is an integral part of our engineering philosophy. BMW EfficientDynamics standards have enabled us to cut the CO₂ emissions of our fleet of new vehicles in Europe by more than 30% between 1995 and today. We're also aiming to reduce the amount of resources such as water and energy used in production by 45% between 2006 and 2020. Production at our engine plant in Steyr has been waste-water free since 2007. And of course each of our vehicles is designed for easy and economical recycling after its long running life. Please contact your BMW partner on all matters regarding your end-of-life vehicle. For further information please visit our website.
