**ONLY** Rustkote...  
Repels Moisture  
Protects Electrical  
Neutralizes Brine  
Lubricates

# BENEFITS

## HOW IS RUSTKOTE DIFFERENT?

- ◇ RustKote is a proprietary formula that adheres to metal and creeps into all crevices for a complete coverage.
- ◇ Each application is layered on by certified technicians for maximum coverage and minimum dripping.
- ◇ Exclusive polymer that protects and lubricates all electrical and moving parts from road brine.
- ◇ Creates an active protective barrier which lifts and repels moisture that prevents corrosion.

## 2 STAGE APPLICATION

### STAGE #1: ANTI-MOISTURE TECH

- ◇ Lifts / Draws / Repels Moisture
- ◇ Penetrates Rust & Bonds to the Bare Metal
- ◇ Creeps Into Crevices & Weep Holes

### STAGE #2: DRIP-LESS FORMULA

- ◇ Creeps Into Crevices and Seams
- ◇ Adheres to Bottom of Vehicle
- ◇ Coats & Protects Electronics

# WHAT IS IT?

## OUR PRODUCT IS

- ◇ A proprietary formula: It is a clear liquid blend of petroleum derivatives, rust inhibitors, water repelling and water displacing agents.
- ◇ It is a safe non-toxic, environmentally friendly, nonflammable rust inhibitor.
- ◇ It is a formula that does not harm painted surfaces, glass, plastic or rubber.
- ◇ It is a formula that does not contain silicones, teflon, solvents, CFC's, or other hazardous materials as defined by OSHA reg. 29CFR-19\_10.1200
- ◇ RustKote is proven to protect year after year.
